Mission Statement
ASCA National Standards (Student Academic, Career and Social/Personal Development)

Foundation

The School District of Fall Creek Comprehensive School Counseling Program is an integral part of the primary educational mission of the district. The program supports, facilitates and encourages classroom instruction and student achievement. Our counseling program is proactive and preventive in its focus. It assists students in acquiring and using life-long learning skills. More specifically, our school counseling program employs strategies to enhance academics, encourage self-awareness, foster interpersonal communication skills, provide career awareness, develop employment readiness, and impart life skills for all students.

Program Definition and Rationale

The School District of Fall Creek Comprehensive School Counseling Program is based on the National Standards for School Counseling Programs and the Wisconsin Comprehensive School Counseling Model, which integrates academic, career, and personal/social development. The school counseling program reflects the progression of student development from kindergarten through grade twelve. It is delivered through a direct service program consisting of the following components:

- School Counseling Curriculum
- Individual Planning
- Responsive Services
- System Support

The program is systematic, sequential, clearly defined, and accountable. Wisconsin Department of Public Instruction licensed school counselors develop, implement, and assess all program components through collaboration with teachers, parents, administrators, students, and the community. Curriculum delivery is a collaborative effort of all school staff. The school counseling program helps ensure equal opportunity for all students to participate fully in the educational process.

Program Assumptions

The primary goal of the school counseling program is to enhance student achievement. The school counseling program and the roles of the school counselor are determined by the educational, career, and personal/social developmental needs of students. For effective implementation of the School District of Fall Creek Comprehensive School Counseling Program, certain staff and program conditions must exist:

- School counselors shall be fully licensed by the Wisconsin Department of Public Instruction and shall have the education and skills necessary to fulfill their responsibilities in developing, implementing, and assessing the comprehensive school counseling program. See Appendix A.

- School counselors shall maintain and operate within the guidelines of the code of ethical standards as specified by the American School Counselor Association. See Appendix B.
Counselors are an integral part of the school community that includes student service members, teachers, administrators, specialists, parents, health professionals, paraprofessionals, and other community representatives.

School counselors are an essential part of the pupil services department comprised of the following members: school counselor, school nurse, and school psychologist.

Conditions for effective program implementation include administrative commitment and support of the school counseling program; positive interpersonal relations among the school staff, adequate physical resources, budget appropriations, and paraprofessional support.

The counselor-to-student ratio shall be appropriate for successful implementation of the Comprehensive School Counseling Program.

Program Beliefs
The counselors in the School District of Fall Creek believe:
- Every student has the right to achieve and experience school success.
- The program is designed to reach every student.
- All students can achieve when given the proper environment and support.
- The program is a partnership with students, parents, teachers, and the community.
- The program is ever changing based on the needs, learning styles, and capabilities of every student.
- The program is developmental in nature, comprehensive in scope, and preventative in design.
- The program is an extension of the overall mission of the school.
- School counselors need to continually seek innovative approaches and knowledge to best serve all students.

Program Philosophy
The counselors in the School District of Fall Creek believe:
- All students, regardless of special needs, cultural background, race, sex, or beliefs, have worth and dignity.
- All students K-12 have the right to participate in a comprehensive school counseling program that is led by fully licensed, state certified school counselors.
- The needs of all students should be the driving force of a school counseling program that is preventative in design and developmental in nature.
- All students have the ability to achieve given the proper support and environment.

And that the Fall Creek School Counseling Program should:
- Be organized, developed, and managed by school counselors in partnership with other school professionals, parents, and community representatives.
- Be based on specific goals identified from the use of data, student needs, and student content standards.
- Be delivered by school counselors along with teachers, parents, and community members when appropriate.
Utilize appropriate community referral services for students and parents when necessary.

Strive to close the achievement gap to ensure quality support for all students.

Be evaluated annually by school counselors.

And that school counselors for the School District of Fall Creek should:

- Adhere to ethical guidelines for professional school counselors as established by the American School Counselor Association
- Abide by laws and administrative codes that affect the practice of professional school counselors in the State of Wisconsin.
- Strive to constantly improve as professionals through participation in professional development activities that maintain and enhance the quality of the school counseling program.

The Professional School Counselor *

The professional school counselor is a certified/licensed educator trained in school counseling with unique qualifications and skills to address all students’ academic, personal/social and career development needs. Professional school counselors implement a comprehensive school counseling program that promotes and enhances student achievement. Professional school counselors are employed in elementary, middle/junior high and high schools, district supervisory, counselor education, and post-secondary settings. Their work is differentiated by attention to developmental stages of student growth, including the needs, tasks, and student interests related to those stages.

Professional school counselors serve a vital role in maximizing student achievement. Incorporating leadership, advocacy and collaboration, professional school counselors promote equity and access to opportunities, and rigorous educational experiences for all students. Professional school counselors support a safe learning environment and work to safeguard the human rights of all members of the school community. Collaborating with other stakeholders to promote student achievement, professional school counselors address the needs of all students through prevention and intervention programs that are a part of a comprehensive school counseling program. To achieve maximum program effectiveness, the American School Counselor Association recommends a counselor-to-student ratio of 1:250.

Professional school counselors have a master’s degree or higher in school counseling or the substantial equivalent, meet the state certification/licensure standards and abide by the laws of the states in which they are employed. They uphold the ethical and professional standards of professional counseling associations and promote the development of the school counseling program based on the following areas of the ASCA National Model: foundation, delivery, management and accountability.

Program Foundation
Professional school counselors identify personal beliefs and philosophies as to how all students benefit from the school counseling program and act on these beliefs and philosophies to guide the development, implementation, and evaluation of a comprehensive school counseling program.

Professional school counselors create a mission statement supporting the school’s mission and collaborate with other individuals and organizations to promote all students’ academic, career and personal/social development.

Program Delivery
Professional school counselors provide services to students, parents, school staff and the community in the following areas:

School Counseling Curriculum – This curriculum consists of structured lessons designed to help students achieve the desired competencies and to provide all students with the knowledge and skills appropriate for their developmental level. The school counseling curriculum is delivered throughout the school's overall curriculum and is systematically presented by professional school counselors in collaboration with other professional educators in K-12 classrooms and group activities.
**Individual Student Planning** – Professional school counselors coordinate ongoing systemic activities designed to help students establish personal goals and develop future plans.

**Responsive Services** – Responsive services are prevention and/or intervention activities that meet students’ immediate and future needs. These needs can arise out of events and conditions in students’ lives and may require any of the following:

- Individual or group counseling
- Consultation with parents, teachers, and other educators
- Referrals to other school support services or community resources
- Peer help
- Information collection and dissemination

Professional school counselors develop confidential relationships with students to help them resolve or cope with problems and developmental concerns.

**System Support** – System support consists of management activities that establish, maintain and enhance the total school counseling program. These activities include professional development, consultation, collaboration, program management and operations. Professional school counselors are committed to continual personal and professional development and are proactively involved in professional organizations promoting school counseling at the local, state and national levels.

**Program Management**

Professional school counselors incorporate organizational processes and tools that are concrete, clearly delineated, and reflective of the school’s needs. These tools and processes include:

- Agreements developed with and approved by administrators at the beginning of the school year addressing how the school counseling program is organized and what goals will be accomplished.
- Advisory councils made up of students, parents, teachers, counselors, administrators, and community members to review school counseling program results and to make recommendations.
- Use of student data to affect systemic change within the school system so every student receives the benefit of the school counseling program.
- Action plans for prevention and intervention services defining the desired student competencies and achievement results.
- Allotment of 80 percent of the professional school counselor’s time in direct service with students.
- Use of master and weekly calendars to keep students, parents, teachers, and administrators informed and to encourage active participation in the school counseling program.
**Program Accountability**

To demonstrate the effectiveness of the school counseling program in measurable terms, professional school counselors report on immediate, intermediate, and long-range results showing how students are different as a result of the school counseling program.

Professional school counselors use data to show the impact of the school counseling program on school improvement and student achievement. Professional school counselors conduct school counseling program audits to guide future action and improve future results for all students. The performance of the professional school counselor is evaluated on basic standards of practice expected of professional school counselors implementing a school counseling program.

**Summary**

Professional school counselors are certified and licensed professionals with a master’s degree or higher in school counseling or the substantial equivalent and are uniquely qualified to address the developmental needs of all students. Professional school counselors deliver a comprehensive school counseling program encouraging all students’ academic, career, and personal/social development and helping all students in maximizing student achievement.

Wisconsin Model Academic Standards for School Counseling

The Wisconsin Comprehensive School Counseling Model builds the content of developmental school counseling programs around nine Model Academic Standards for School Counseling. Each standard represents a broad developmental concept. Each concept inspires a separate but related core performance standard. As individuals develop, they become more knowledgeable and sophisticated in their use of these standards throughout their lives. While this model is described in the context of a K-12 comprehensive school counseling program, these standards represent lifelong development and learning goals.

I.1 Create and manage an educational and career plan that matches career goals
   I.8.1.1 Use career planning strategies and tools to develop career awareness and a career plan.
   I.8.1.2 Document actions taken to attain short-term and long-term educational and career goals.

I.2 Apply decision-making skills to career planning and development
   I.8.2.1 Recognize and demonstrate the use of various decision-making styles and their effect on career planning.
   I.8.2.2 Give specific examples of how education, work, and family experiences influence career decisions.
   I.8.2.3 Demonstrate the use of information (e.g., about oneself; local, national, and global economic trends; and educational options) to consider in career decisions.
   I.8.2.4 Show how beliefs, culture, work values, personal priorities, and knowledge of the broad range of career opportunities will influence career decisions.

I.3 Recognize how principles of equal opportunity, equity, respect, inclusiveness, and fairness affect career planning and management
   I.8.3.1 Demonstrate openness to exploring and considering a wide range of occupations and career paths, including those that may be considered new or nontraditional for individuals based on gender, race, culture, ability, or other characteristics.
   I.8.3.2 Define how one’s own ethnicity, culture, gender, disability, or family traditions may affect career choices and plans.
   I.8.3.3 Demonstrate an acceptance of and respect for other people and their career choices.

I.4 Develop employability skills to gain, maintain, advance in, or transition to a new job or career
   I.8.4.1 Identify skills and how they are transferable from one situation or area of interest to another.

I.5 Access and use current and accurate career information in career planning
  I.8.5.1 Demonstrate the ability to find and use different types of career information resources (i.e., occupational, educational, economic, and employment) to support career planning.
  I.8.5.2 Show how career information has contributed to one’s current plans and how it can be used in future plans.
  I.8.5.3 Give examples of how career clusters and pathways can be used in career planning.

BY THE END OF GRADE 12 STUDENTS WILL:

I.1 Create and manage an educational and career plan that matches career goals
  I.12.1.1 Give examples of how individual and/or world of work changes may impact career plans.

I.2 Apply decision-making skills to career planning and development
  I.12.2.1 Give specific examples of how biases and stereotypes (e.g., race, culture, national origin, gender, disability, economic status, religion, sexual orientation, etc.) may affect career decisions.
  I.12.2.2 Give examples of how “chance” might play a role in career decisions.
  I.12.2.3 Give examples of compromises or sacrifices one may have to make in career choices.
  I.12.2.4 Give examples of how factors related to geographic mobility may influence career decisions.

I.3 Recognize how principles of equal opportunity, equity, respect, inclusiveness, and fairness affect career planning and management
  I.12.3.1 Recognize and describe the limiting effects of stereotypes, biases, past discrimination, and unconscious prejudice based on race, culture, national origin, gender, disability, economic status, religion, sexual orientation, or other factors of human difference on career aspirations and plans.
  I.12.3.2 Recognize and identify how specific career information, or potential career information, is out-of-date, incomplete, inaccurate, stereotypical, or discriminatory.
  I.12.3.3 Demonstrate skills or strategies for overcoming barriers or unsupportive responses to one’s career goals and plans.
  I.12.3.4 Demonstrate attitudes, behaviors, and skills characterized by fairness, equality, justice, inclusiveness, and civic responsibility that are critical to effective workplaces and communities.
  I.12.3.5 Demonstrate multi-cultural and cross-cultural knowledge, skills, and perspectives (i.e., cultural competence) necessary to participate in a global economy.

I.4 Develop employability skills to gain, maintain, advance in, or transition to a new job or career

I.12.4.1 Demonstrate job seeking skills, including the ability to create and adapt resumes and cover letters, complete a job application, interview for a job, and network to find and pursue employment leads.

I.12.4.2 Demonstrate attainment of general employability skills and personal qualities needed to be successful in school and employment (e.g., critical thinking, problem solving, technology literacy, interpersonal skills, honesty, dependability, work-related communication, customer service skills, adaptability, punctuality, managing conflict, resiliency).

I.5 Access and use current and accurate career information in career planning

I.12.5.1 Identify changes in local, national, and global employment trends, societal needs, and economic conditions related to career planning.

I.12.5.2 Identify opportunities for self-employment or entrepreneurship in career planning.

Legal & Ethical Considerations for School Counselors

Ethical Standards*
School counselors shall maintain and operate within the guidelines of the ethical standards prescribed by the American School Counselor Association (ASCA).

The ASCA is a professional organization whose members have unique and distinctive preparation, grounded in the behavioral sciences, with training in clinical skills adapted to the school setting. The school counselor assists in the growth and development of each individual and uses highly specialized skills to protect the interests of the student within the structure of the school system.

The Code of Ethics of the ASCA (see Appendix B) specifies the principles of ethical behavior necessary to maintain and regulate high standards of integrity, leadership, and professionalism among its members. The purposes of the Code of Ethics are to:

- Serve as a guide for the ethical practices of all professional school counselors, regardless of level, area, population served, or membership in ASCA.
- Provide benchmarks for both self-appraisal and peer evaluations regarding counselor responsibilities to students, parents/guardians, colleagues and professional associates, schools and communities, self, and the counseling profession.
- Inform those served by the school counselor of acceptable professional behavior.

Privileged Communication
Wisconsin State Statute 118.126 provides for the right of privileged communication between the counselor and student as follows:

118.126(1)
A school psychologist, counselor, social worker, nurse, and any teacher or administrator designated by the school board who engages in alcohol or drug abuse program activities, shall keep confidential information received from a pupil that the pupil or another pupil is using or is experiencing problems resulting from the use of alcohol or other drugs unless:

(1)(a) The pupil using or experiencing problems resulting from the use of alcohol or other drugs consents in writing to disclosure of the information;

(1)(b) The school psychologist, counselor, social worker, nurse, teacher or administrator has reason to believe that there is serious and imminent danger to the health, safety or life of any person and that disclosure of the information to another person will alleviate the serious and imminent danger. No more information than is required to alleviate the serious and imminent danger may be disclosed; or
(1)(c)
The information is required to be reported under s. 48.981 (Child Abuse and/or Neglect).

118.126(2)
A school psychologist, counselor, social worker, nurse, or any teacher or administrator
designated by the school board who engages in alcohol or drug abuse program activities,
who in good faith discloses or fails to disclose information under sub. (1) is immune from civil
liability for such acts or omissions. This subsection does not apply to information required to
be reported under s. 48.981.

Mandatory Reporting
The Board of Education recognizes the serious local, state, and national problems associated
with child abuse and neglect. The Board also recognizes the legal responsibility for reporting
suspected cases of child abuse to duly-constituted state, county, or local authorities.

Since school employees are in a unique position to identify potential cases of abuse and/or
neglect of children, responsible action by school employees can be achieved through
recognizing and understanding of the problem, knowing the reporting procedures, and
participating in informational programs regarding child abuse provided for employees of the
school district.

Based on these legal requirements and moral commitments, the Board directs the
administration to develop guidelines which will provide direction for the school staff members
in identifying and reporting suspected child abuse cases. Such guidelines should make staff
personnel aware that, by state statute, they are immune from civil and/or criminal liability
when reporting suspected child abuse cases and failure to report by those required to report
may result in legal action being taken.

To maintain awareness on the part of all professional staff members, the School District of
Fall Creek will cooperate with other appropriate community agencies in providing periodic
staff development on the subject of child abuse and neglect.

School counselors are mandated reporters and will abide by legal obligations as specified in
the Wisconsin State Statutes.

Delivery System

School Counseling Curriculum
The Wisconsin Comprehensive School Counseling Model (WCSCM) builds the content of the comprehensive school counseling program around nine student content standards. The WCSCM standards are implemented through the following activities:

**Classroom Activities:** Counselors teach, team-teach, and/or assist in teaching curriculum in a variety of subject areas to all students in classrooms, computer labs, and other school facilities.

**Groups:** Counselors facilitate groups outside the classroom to address students’ identified needs or interests. Structured group activities enhance student skills and knowledge.

**Career Planning Activities:** Counselors work individually with students and families on a variety of activities such as, career research, job shadowing, postsecondary planning, scholarship searches, and employment searches.

The school counselor’s responsibilities include planning, designing, implementing, and evaluating the school counseling curriculum. The School District of Fall Creek School Counseling Program has organized the WCSCM content standards around the following topical themes:

- Career Education
- Character Education
- Diversity
- Learning Skills
- Protective Behaviors
- Self-Empowerment
- Transitions

See Appendix D
Individual Planning

Individual planning consists of ongoing activities that help students plan, monitor, and manage their educational, personal, and career development. Students are given opportunities to evaluate their educational, occupational, and personal goals. The activities in this component are counselor planned, directed, and may be delivered on an individual or group basis. Individual sessions include a review of each student’s educational and career options, and they include strategies of individual assessment, individual advisement, and transition planning. Parental involvement is a vital component of the individual student planning process.

Parents have the greatest influence on the educational and career choices made by young adults. They help by conveying positive attitudes about education and career planning, communicating with their children about their unique qualities, and by assisting them in exploring careers. Parent conferences are the primary method for involving parents. Student and Parent Educational/Career Planning Conferences, at given grade levels as determined by the school district, occur in the counseling office where students, parents and the counselor discuss and formulate the student’s short and long-term plans.

**Individual Assessment:** Counselors work with students, parents/guardians, and teachers in the assessment and interpretation of abilities, aptitudes, interests, and skills. The use of appropriate test information becomes an important component for developing immediate and long-range plans for students. Assessments are used for educational, personal, and career development and are administered in accordance with state guidelines.

**Individual Student Advising:** Counselors assist students in their development of self-knowledge. The information revealed with assessment tools is related to each student’s educational and career goals. The involvement of students, parents/guardians, and school staff is critical in making plans that meet students’ individual needs.

**Transition Planning:** Counselors assist students and parents/guardians with transitions. They provide formal and informal opportunities to support students in a process that includes problem solving, decision-making, and orientation.

**Individual Planning- Elementary School**

Counselors collaborate with students, parents/guardians and teachers to develop an individual plan to accommodate students’ needs.

**Individual student assessment:** Achievement tests are administered in accordance with local and state guidelines. Counselors are available to consult with parents/guardians and staff regarding test interpretation.

**Individual student advising:** Counselors may consult with students and grade level teams regarding the goal setting process. Counselors assist with individual student plans as needed. Counselors will be involved in building Student Support Teams. Individual plans are developed to assist student efforts to be successful in school. Individual plans may include regular education accommodations, behavior plans, and homebound school plans.
Transition planning: Counselors, teachers, and parents/guardians assist students in the primary grades with their transition to a structured school environment. Elementary and middle school staff collaborate to help students with their transition to middle school. Counselors at the elementary and middle school levels communicate regarding program issues and individual student needs.

Individual Planning – Middle School

Individual planning takes on a more specific role at the middle school level. Students are introduced to the career portfolio and continue career and educational planning. The middle school level of individual student planning guides groups and individual students through the development of educational and career plans.

Individual student assessment: Students participate in standardized achievement tests in accordance with the local and state guidelines. Results are interpreted for students and sent home for parent/guardian review. Students also participate in a career unit, complete interest inventories, learning styles inventories, character education units, and drug and alcohol prevention units led by the counselor.

Individual student advising: Students participate in goal setting activities in preparation for their student/parent/counselor conferences. Conferences are held with students/parents/guardians to facilitate the development of a four-year plan. Plans are developed to assist student efforts to be successful in school. Individual plans may include regular education accommodations, behavioral plans, job shadowing activities and home/school plans.

Transition planning: Counselors and teachers at the middle level consult with elementary counselor/teachers in the development of appropriate student placement. Counselors orient students and parents/guardians to the middle school. They collaborate about students who are at-risk and assist in planning with teachers and parents/guardians to address specific needs of students.

Individual Planning – High School

The individual student planning component in the high school assists students in becoming responsible adults who can develop realistic and fulfilling life plans based on clear understandings of themselves, their needs, interests, and skills. Individual student planning includes a review of student plans, career goals, related courses, and postsecondary opportunities.

Individual assessment: Counselors administer and interpret the results of achievement tests, aptitude tests, interest inventories and college admissions exams.

Individual advising: Counselors assist students in using self-appraisal and assessment information together with personal/social, education and career goals. Advisement activities include course selection, accommodation plans, job-shadowing and scholarship searches. Formal individual advising sessions are held at the twelfth grade.

Transition planning: Counselors assist in the ongoing transition process in high school. Types of transition activities include student orientation, tours, college visits, mentoring programs and career exploration.
Responsive Services
School counselors are in the best position to assess the school for barriers to academic success for all students. Before students can learn effectively, the academic, personal, and/or social challenges that interfere with their learning must be addressed. Violence, gangs, suicide, divorce, hopelessness, dropping out of school, lack of skills, hunger, and transition issues are examples of concerns that can interfere with the learning process.

Responsive services consist of preventive activities or interventions to meet the immediate needs and concerns of students. These services are delivered through counseling, consultation, and referral. This component is available to all students and is often student initiated.

Counselors in collaboration with students, staff, parent/guardians and community resources implement this component. While counselors have specialized training and skills to respond to these needs and concerns, the cooperation and support of the entire faculty and staff is necessary for the successful implementation of this component.

Student issues which may be addressed in responsive services could include, but is not limited to the following areas:

- Academic planning
- Anger management
- Career education
- Conflict resolution
- Crisis intervention
- Relationship concerns
- Scholarship/financial aid
- Social Skills
- Substance use/abuse issues
- Social Skills

Counseling
Counseling is the process of helping people by assisting them in making decisions and changing behavior. The school counselor has the skills and knowledge to address the personal/social, educational, and career needs of school-age children.

Counseling services are delivered through such strategies as:

*Individual counseling*: A service provided for students expressing difficulties dealing with relationships, personal concerns, or normal developmental tasks. Individual counseling assists students in identifying problems, causes, and possible consequences so that appropriate action is taken. Interventions are provided in response to student need based on referral and/or request. School counselors consider interventions in terms of the rights, integrity, and welfare of the student. Counselors are obligated by law and ethical standards to report and to refer a case when a person’s welfare is in jeopardy.
Areas that may be addressed in individual counseling are: problem-solving strategies, interpersonal relationships, educational planning and career exploration, conflict resolution, anger management, and crisis intervention.

**Group counseling:** A service that assists students in addressing their common needs and concerns. Students identify problems, causes, alternatives and possible outcomes so that appropriate action may be taken. Interventions take the form of long-term support groups, short-term issue specific groups, and crisis intervention groups.

Areas of group concern are similar to individual counseling topics and may also include social skills, anger management, relationship issues, grief issues, academic planning, career education, study skills, and application for scholarships and financial aid.

**Crisis counseling and support:** A service provided to students and their families facing emergency situations. Such counseling is normally short-term and temporary in nature. When necessary, appropriate referral resources are used.

School Counselors DO NOT provide therapy. When necessary, referrals are made to appropriate community resources.

**Referral**

Counselors utilize available resources outside the school setting to assist students, parents/guardians, and staff. These resources may include: mental health agencies, teen pregnancy programs, social services agencies, juvenile services, local law enforcement, employment and training programs, vocational rehabilitation, and other community resources. The collaboration between parents/guardians and counselors increases opportunities for parent-school interaction and leads to greater access to school and community resources. As student advocates, the more frequently school counselors can communicate with parents/guardians, the more easily they can make informed decisions that support their students’ success.

**Consultation**

The goal of consultation is to assist in the development and implementation of skills and strategies that will enable students to become self-sufficient. Counselors collaborate with staff, parents/guardians and community resources regarding strategies to help students.

Collaborating with teachers in a preventive program reflects a joint effort toward student development and might help prevent crises from occurring. In a collaborative consultative role, counselors help in clarifying issues, collecting relevant information, setting goals, implementing strategies, and evaluating outcomes. When determining specific intervention strategies, the counselor may or may not be involved in providing direct service to the student. The liaison role of the counselor with the community may take the following forms:

- Coordinate the team’s contact with community resources.
- Facilitate community representatives’ participation.
- Work to insure that individuals from non-school-based agencies are familiar with school policies and procedures.
- Confirm that treatment recommendations are congruent with school based interventions.
System Support
System support consists of management activities that establish, maintain, and enhance the comprehensive school counseling program. This component is implemented and carried out through activities in the following areas:

Advisory Councils: Counselors actively participate on departmental, curriculum, community and/or advisory committees. These are examples of ways to support programs within the school and community and to gain support for the guidance program.

Community Outreach: Counselors are knowledgeable about community resources, employment opportunities and local labor market information. Counselors collaborate and make referrals to appropriate agencies to address the individual needs of students.

Consultation: Counselors consult with teachers and other staff members regularly in order to provide information, to support staff, and to receive feedback on the emerging needs of students.

Non-Counseling School Activities: Counselors are active, visible members of the school community. Counselors will undertake their “fair share” of non-counseling school activities.

Parent Involvement: Counselors educate parents/guardians about the scope and sequence of the comprehensive school counseling program. This awareness provides parent/guardians with the knowledge and skills necessary to be actively involved in their child’s educational and career planning.

Professional Development: Counselors update their professional knowledge and skills on a regular basis. This may include participating in in-service training, school counseling workshops, visiting other school sites, attending professional meetings, completing postgraduate course work and working with postsecondary institutions.

Program Management: Counselors organize, plan, manage, and implement the activities conducted in a school counseling program.

Research and Development: Counselors seek evaluative input from school personnel, parents, and students concerning the school counseling program. This information is used to periodically develop and update the various components of the comprehensive school counseling program.

Staff and Community Relations: Counselors educate staff and the community about the comprehensive school counseling program. To accomplish this task, a variety of methods are used, including:

- School counseling personnel contribute to District newsletters.
- A brochure explaining the school counseling program is available.
- A web page detailing the school counseling services is provided. Additional web page links include information pertaining to college, financial aid, health, study skills, career development and parenting.

Counselors present the school counseling program to community service organizations and utilize the local media to promote the program. Communicating the goals of the counseling program with professional educators, parents or guardians, students, and community members provides the foundation for the success of the comprehensive school counseling program.

The Elements and Themes of a Comprehensive School Counseling Program

Management System

The management system of the School District of Fall Creek counseling program addresses the “when” (calendar and action plans), “why” (use of data), and “on what authority” (management agreement and advisory council) the program will be implemented.

Management Agreements
School District of Fall Creek counselor and administration agreements include statements of responsibilities by each counselor specifying the program results the counselor is accountable for achieving during the year. It also includes how counselors divide the program responsibilities. These agreements are negotiated with and approved by designated administrators at the beginning of each school year.

Advisory Council
An advisory council is a group of people selected to review the school counseling program results and to make recommendations. The group representatives are: students, parents, teachers, counselors, administrators, board members and community members.

The advisory council should meet at least two times per school year.

Use of Data*
The School District of Fall Creek school counseling program is data-driven. The use of data to effect change within our school system is vital to ensuring that 100% of the students receive the benefits of the school counseling program. Furthermore, the use of data:

- Concretely demonstrates accountability and progress toward goals
- Monitors student progress
- Creates an urgency for change
- Serves as a catalyst for focused action
- Engages decision makers in data-driven decision making
- Challenges existing policies, practices, attitudes, and mindsets
- Supports grant proposals
- Focuses resources, programs, interventions, and strategies where they are most needed

Our counselors assure that each activity implemented is in keeping with the WCSCM standards, student needs, and local related data.

**Student Monitoring***

Monitoring students’ progress ensures all students receive what they need to achieve success in school. It entails monitoring student achievement data, achievement related data, and standards related data.

School Counselors monitor student progress through three types of data: student achievement data, achievement related data, and standards/competency related data.

Student achievement data measures academic progress and includes things such as:

- Standardized test data
- Grade point averages
- ACT and SAT scores
- Graduation rate
- At or above grade/achievement in reading, math, etc.
- Passing all classes
- Promotion and retention rates
- Drop out rates
- Completion of specific academic programs (academic honors, college prep)

Achievement related data measures items that correlate to academic achievement and includes:

- Course enrollment patterns
- Discipline referrals
- Suspension rates
- Alcohol, tobacco, and other drug violations
- Attendance rates
- Parent involvement
- Participation in extracurricular activities
- Homework completion rates

Standards/competency related data includes items such as:

- Percentage of students with four-year plans on file
- Percentage of students who participated in job shadowing
- Percentage of students who have set and attained academic goals
- Percentage of students who apply conflict resolution skills

Collection, analysis and interpretation of student achievement data is in keeping with district policies and procedures.

Closing the Gap
Data is necessary to determine where the School District of Fall Creek school counseling program is now, where it should be, and where it is going to go. Counselors will emphasize identified discrepancies between the desired results and results currently being achieved (referred to as the gap).

Action Plans
The School District of Fall Creek counseling curriculum and Student and Parent Individual Planning Conferences Action Plans are found in the Curricular Action Plan Guide. Usage of these plans ensures scheduling is in place to reach every student, as well as, provide additional opportunities designed to enhance and accelerate meeting the needs of individual students. School counseling curriculum action plans include:

- Standard
- Objective
- Descriptor
- Lesson/Conference activities
- Timelines
- Person(s) responsible for delivery
- Assessment of activities

Use of Time
The School District of Fall Creek counselors have determined a given amount of time to be spent delivering services in each of the four components of the delivery system. Our comprehensive school counseling program requires counselors to spend the majority of their time (80%) in direct service/contact with students and their parent(s).

The counselors have determined the amount of time to spend in each area of the delivery system. A master calendar and weekly calendar are developed and published to ensure all program beneficiaries know what is scheduled. Annual, monthly and weekly calendars ensure planned activities are accomplished.

accountability system
The Elements and Themes of a Comprehensive School Counseling Program

Accountability

Accountability and evaluation of the School District of Fall Creek school counseling program and school counselors are essential to the ongoing development, management, and full implementation of our district program.

To assess the impact of the school counseling program over time, counselors and administrators will demonstrate program effectiveness in measurable terms through the use of results reports, school counselor performance standards, and a program audit.

Results Reports*
Results reports ensure programs are carried out, analyzed for effectiveness, and changed or further improved as needed. The goal is to show change in student behavior and student learning.

Results can benefit the program in a number of ways, including:

- Ensuring the program was carried out as planned
- Ensuring every study was served
- Ensuring developmentally appropriate materials were used
- Documenting the program’s process, perception and results data
- Analyzing the program effectiveness
- Sharing the program’s successes
- Improving the program
- Advocating for systemic change in the school system

Program Evaluation Data
It is important to show the school counseling program’s impact. This requires evaluation of process, perception, and results data collected immediately, intermediately, or over time.

Process Data: Answers the question “What did you do for whom?” and provides evidence that an event occurred. It describes where lessons occurred, on what topic, how many students were affected, and how many students participated.

(example: 200 3rd graders received violence prevention school counseling lessons)

Perception Data: Answers the question “What do people think they know, believe, or can do?” This data is collected through pre/post surveys, tests, or skill demonstration.

(example: 92% of students can identify the early warning signs of violence)

Results Data: Answers the “so what?” question. This data shows that a program had a positive impact on students’ ability to utilize their knowledge, attitudes, and skills to effect behavior change. This data is collected from attendance rates, number of discipline referrals, GPAs, graduation rates, etc.

(example: attendance improved by 3rd grade males by 6%)
Data Over Time
Data over time provides a true picture of the impact of a school counseling program. It can be collected over three time frames:

**Immediate:** Data that measures the immediate impact of knowledge, skills, and attitudes as a result of a counselor activity or intervention (e.g. pre/post test results)

**Intermediate:** Data collected to measure knowledge, skills, and attitudes over a short period of time (e.g. improved test-taking ability, classroom behavior improvement, improved grades after a homework and study skill lesson)

**Long Range:** School-wide, year – to – year longitudinal student impact in areas such as attendance, graduation rates, and suspension data.

The impact-over-time minimally should contain the following:

- Student Demographics: enrollment data, gender, ethnicity, grade levels, and languages
- Academic Achievement: standardized test scores, GPAs, dropout rates, graduation rates
- Career Development: students enrolled in work experience, job shadowing
- Personal/Social Development: climate survey results, substance use and abuse statistics, attendance data, and suspension/expulsion data
- Parent Involvement: Parent attendance at evening activities, parent workshops and conferences

School counselors also need to rely on disaggregate data. To disaggregate data, school counselors separate data by variables to see if there are any groups of students who might not be doing as well as others. Ways to disaggregate data by include:

- Gender
- Ethnicity
- Socio-economic status (free and reduced lunch)
- Language spoken at home
- Special education
- Grade level
- Teacher

Immediate, intermediate, and long range results are collected and analyzed for program improvement. School District of Fall Creek school personnel will share these reports with stakeholders as an advocacy for the students and the program.

School Counselor Performance Standards
The performance evaluations of school counselors contain basic standards of practice expected of counselors endeavoring to fully implement the school counseling program.

Program Audit
The program audit provides evidence of the program alignment with the national and state models and standards.

ethical standards
AMERICAN SCHOOL COUNSELORS ASSOCIATION
ETHICAL STANDARDS FOR SCHOOL COUNSELORS

ASCA’s Ethical Standards for School Counselors were adopted by the ASCA Delegate Assembly, March 19, 1984, revised March 27, 1992, June 25, 1998 and June 26, 2004.

Preamble

The American School Counselor Association (ASCA) is a professional organization whose members are certified/licensed in school counseling with unique qualifications and skills to address the academic, personal/social and career development needs of all students. Professional school counselors are advocates, leaders, collaborators and consultants who create opportunities for equity in access and success in educational opportunities by connecting their programs to the mission of schools and subscribing to the following tenets of professional responsibility:

• Each person has the right to be respected, be treated with dignity and have access to a comprehensive school counseling program that advocates for and affirms all students from diverse populations regardless of ethnic/racial status, age, economic status, special needs, English as a second language or other language group, immigration status, sexual orientation, gender, gender identity/expression, family type, religious/spiritual identity and appearance.

• Each person has the right to receive the information and support needed to move toward self-direction and self-development and affirmation within one’s group identities, with special care being given to students who have historically not received adequate educational services: students of color, low socio-economic students, students with disabilities and students with non-dominant language backgrounds.

• Each person has the right to understand the full magnitude and meaning of his/her educational choices and how those choices will affect future opportunities.

• Each person has the right to privacy and thereby the right to expect the counselor-student relationship to comply with all laws, policies and ethical standards pertaining to confidentiality in the school setting.

In this document, ASCA specifies the principles of ethical behavior necessary to maintain the high standards of integrity, leadership and professionalism among its members. The Ethical Standards for School Counselors were developed to clarify the nature of ethical responsibilities held in common by school counseling professionals. The purposes of this document are to:

• Serve as a guide for the ethical practices of all professional school counselors regardless of level, area, population served or membership in this professional association;

• Provide self-appraisal and peer evaluations regarding counselor responsibilities to students, parents/guardians, colleagues and professional associates, schools, communities and the counseling profession; and

• Inform those served by the school counselor of acceptable counselor practices and expected professional behavior.
A.1. Responsibilities to Students

The professional school counselor:

a. Has a primary obligation to the student, who is to be treated with respect as a unique individual.

b. Is concerned with the educational, academic, career, personal and social needs and encourages the maximum development of every student.

c. Respects the student’s values and beliefs and does not impose the counselor’s personal values.

d. Is knowledgeable of laws, regulations and policies relating to students and strives to protect and inform students regarding their rights.

A.2. Confidentiality

The professional school counselor:

a. Informs students of the purposes, goals, techniques and rules of procedure under which they may receive counseling at or before the time when the counseling relationship is entered. Disclosure notice includes the limits of confidentiality such as the possible necessity for consulting with other professionals, privileged communication, and legal or authoritative restraints. The meaning and limits of confidentiality are defined in developmentally appropriate terms to students.

b. Keeps information confidential unless disclosure is required to prevent clear and imminent danger to the student or others or when legal requirements demand that confidential information be revealed. Counselors will consult with appropriate professionals when in doubt as to the validity of an exception.

c. In absence of state legislation expressly forbidding disclosure, considers the ethical responsibility to provide information to an identified third party who, by his/her relationship with the student, is at a high risk of contracting a disease that is commonly known to be communicable and fatal. Disclosure requires satisfaction of all of the following conditions:
   • Student identifies partner or the partner is highly identifiable
   • Counselor recommends the student notify partner and refrain from further high-risk behavior
   • Student refuses
   • Counselor informs the student of the intent to notify the partner
   • Counselor seeks legal consultation as to the legalities of informing the partner

d. Requests of the court that disclosure not be required when the release of confidential information may potentially harm a student or the counseling relationship.

e. Protects the confidentiality of students’ records and releases personal data in accordance with prescribed laws and school policies. Student information stored and transmitted electronically is treated with the same care as traditional student records.

f. Protects the confidentiality of information received in the counseling relationship as specified by federal and state laws, written policies and applicable ethical standards. Such information is only to be revealed to others with the informed consent of the student, consistent with the counselor’s ethical obligation.

g. Recognizes his/her primary obligation for confidentiality is to the student but balances that obligation with an understanding of the legal and inherent rights of parents/guardians to be the guiding voice in their children’s lives.
A.3. Counseling Plans

The professional school counselor:

a. Provides students with a comprehensive school counseling program that includes a strong emphasis on working jointly with all students to develop academic and career goals.

b. Advocates for counseling plans supporting students right to choose from the wide array of options when they leave secondary education. Such plans will be regularly reviewed to update students regarding critical information they need to make informed decisions.

A.4. Dual Relationships

The professional school counselor:

a. Avoids dual relationships that might impair his/her objectivity and increase the risk of harm to the student (e.g., counseling one’s family members, close friends or associates). If a dual relationship is unavoidable, the counselor is responsible for taking action to eliminate or reduce the potential for harm. Such safeguards might include informed consent, consultation, supervision and documentation.

b. Avoids dual relationships with school personnel that might infringe on the integrity of the counselor/student relationship

A.5. Appropriate Referrals

The professional school counselor:

a. Makes referrals when necessary or appropriate to outside resources. Appropriate referrals may necessitate informing both parents/guardians and students of applicable resources and making proper plans for transitions with minimal interruption of services. Students retain the right to discontinue the counseling relationship at any time.

A.6. Group Work

The professional school counselor:

a. Screens prospective group members and maintains an awareness of participants’ needs and goals in relation to the goals of the group. The counselor takes reasonable precautions to protect members from physical and psychological harm resulting from interaction within the group.

b. Notifies parents/guardians and staff of group participation if the counselor deems it appropriate and if consistent with school board policy or practice.

c. Establishes clear expectations in the group setting and clearly states that confidentiality in group counseling cannot be guaranteed. Given the developmental and chronological ages of minors in schools, the counselor recognizes the tenuous nature of confidentiality for minors renders some topics inappropriate for group work in a school setting.

d. Follows up with group members and documents proceedings as appropriate.

A.7. Danger to Self or Others

The professional school counselor:

a. Informs parents/guardians or appropriate authorities when the student’s condition indicates a clear and imminent danger to the student or others. This is to be done after careful deliberation and, where possible, after consultation with other counseling professionals.
b. Will attempt to minimize threat to a student and may choose to 1) inform the student of actions to be taken, 2) involve the student in a three-way communication with parents/guardians when breaching confidentiality or 3) allow the student to have input as to how and to whom the breach will be made.

A.8. Student Records

The professional school counselor:

a. Maintains and secures records necessary for rendering professional services to the student as required by laws, regulations, institutional procedures and confidentiality guidelines.

b. Keeps sole-possession records separate from students’ educational records in keeping with state laws.

c. Recognizes the limits of sole-possession records and understands these records are a memory aid for the creator and in absence of privilege communication may be subpoenaed and may become educational records when they 1) are shared with others in verbal or written form, 2) include information other than professional opinion or personal observations and/or 3) are made accessible to others.

d. Establishes a reasonable timeline for purging sole-possession records or case notes. Suggested guidelines include shredding sole possession records when the student transitions to the next level, transfers to another school or graduates. Careful discretion and deliberation should be applied before destroying sole-possession records that may be needed by a court of law such as notes on child abuse, suicide, sexual harassment or violence.

A.9. Evaluation, Assessment and Interpretation

The professional school counselor:

a. Adheres to all professional standards regarding selecting, administering and interpreting assessment measures and only utilizes assessment measures that are within the scope of practice for school counselors.

b. Seeks specialized training regarding the use of electronically based testing programs in administering, scoring and interpreting that may differ from that required in more traditional assessments.

c. Considers confidentiality issues when utilizing evaluative or assessment instruments and electronically based programs.

d. Provides interpretation of the nature, purposes, results and potential impact of assessment/evaluation measures in language the student(s) can understand.

e. Monitors the use of assessment results and interpretations, and takes reasonable steps to prevent others from misusing the information.

f. Uses caution when utilizing assessment techniques, making evaluations and interpreting the performance of populations not represented in the norm group on which an instrument is standardized.

g. Assesses the effectiveness of his/her program in having an impact on students’ academic, career and personal/social development through accountability measures especially examining efforts to close achievement, opportunity and attainment gaps.

A.10. Technology

The professional school counselor:

a. Promotes the benefits of and clarifies the limitations of various appropriate technological applications. The counselor promotes technological applications (1) that are appropriate for the student’s individual needs, (2) that the student understands how to use and (3) for which follow-up counseling assistance is provided.
b. Advocates for equal access to technology for all students, especially those historically underserved.

c. Takes appropriate and reasonable measures for maintaining confidentiality of student information and educational records stored or transmitted over electronic media including although not limited to fax, electronic mail and instant messaging.

d. While working with students on a computer or similar technology, takes reasonable and appropriate measures to protect students from objectionable and/or harmful online material.

e. Who is engaged in the delivery of services involving technologies such as the telephone, videoconferencing and the Internet takes responsible steps to protect students and others from harm.

A.11. Student Peer Support Program

The professional school counselor: Has unique responsibilities when working with student-assistance programs. The school counselor is responsible for the welfare of students participating in peer-to-peer programs under his/her direction.

B. Responsibilities to Parents/Guardians

B.1. Parent Rights and Responsibilities

The professional school counselor: a. Respects the rights and responsibilities of parents/guardians for their children and endeavors to establish, as appropriate, a collaborative relationship with parents/guardians to facilitate the student’s maximum development.

b. Adheres to laws, local guidelines and ethical standards of practice when assisting parents/guardians experiencing family difficulties that interfere with the student’s effectiveness and welfare.

c. Respects the confidentiality of parents/guardians.

d. Is sensitive to diversity among families and recognizes that all parents/guardians, custodial and non-custodial, are vested with certain rights and responsibilities for the welfare of their children by virtue of their role and according to law.

B.2. Parents/Guardians and Confidentiality

The professional school counselor: a. Informs parents/guardians of the counselor’s role with emphasis on the confidential nature of the counseling relationship between the counselor and student.

b. Recognizes that working with minors in a school setting may require counselors to collaborate with students’ parents/guardians.

c. Provides parents/guardians with accurate, comprehensive and relevant information in an objective and caring manner, as is appropriate and consistent with ethical responsibilities to the student.

d. Makes reasonable efforts to honor the wishes of parents/guardians concerning information regarding the student, and in cases of divorce or separation exercises a good-faith effort to keep both parents informed with regard to critical information with the exception of a court order.
C. Responsibilities to Colleagues and Professional Associates

C.1. Professional Relationships

The professional school counselor:
a. Establishes and maintains professional relationships with faculty, staff and administration to facilitate an optimum counseling program.

b. Treats colleagues with professional respect, courtesy and fairness. The qualifications, views and findings of colleagues are represented to accurately reflect the image of competent professionals.

c. Is aware of and utilizes related professionals, organizations and other resources to whom the student may be referred.

C.2. Sharing Information with Other Professionals

The professional school counselor:
a. Promotes awareness and adherence to appropriate guidelines regarding confidentiality, the distinction between public and private information and staff consultation.

b. Provides professional personnel with accurate, objective, concise and meaningful data necessary to adequately evaluate, counsel and assist the student.

c. If a student is receiving services from another counselor or other mental health professional, the counselor, with student and/or parent/guardian consent, will inform the other professional and develop clear agreements to avoid confusion and conflict for the student.

d. Is knowledgeable about release of information and parental rights in sharing information.

D. Responsibilities to the School and Community

D.1. Responsibilities to the School

The professional school counselor:
a. Supports and protects the educational program against any infringement not in students’ best interest.

b. Informs appropriate officials in accordance with school policy of conditions that may be potentially disruptive or damaging to the school’s mission, personnel and property while honoring the confidentiality between the student and counselor.

c. Is knowledgeable and supportive of the school’s mission and connects his/her program to the school’s mission.

d. Delineates and promotes the counselor’s role and function in meeting the needs of those served. Counselors will notify appropriate officials of conditions that may limit or curtail their effectiveness in providing programs and services.

e. Accepts employment only for positions for which he/she is qualified by education, training, supervised experience, state and national professional credentials and appropriate professional experience.

f. Advocates that administrators hire only qualified and competent individuals for professional counseling positions.
g. Assists in developing: (1) curricular and environmental conditions appropriate for the school and community, (2) educational procedures and programs to meet students’ developmental needs and (3) a systematic evaluation process for comprehensive, developmental, standards-based school counseling programs, services and personnel. The counselor is guided by the findings of the evaluation data in planning programs and services.

D.2. Responsibility to the Community

The professional school counselor:
a. Collaborates with agencies, organizations and individuals in the community in the best interest of students and without regard to personal reward or remuneration.

b. Extends his/her influence and opportunity to deliver a comprehensive school counseling program to all students by collaborating with community resources for student success.

E. Responsibilities to Self

E.1. Professional Competence

The professional school counselor:
a. Functions within the boundaries of individual professional competence and accepts responsibility for the consequences of his/her actions.

b. Monitors personal well-being and effectiveness and does not participate in any activity that may lead to inadequate professional services or harm to a student.

c. Strives through personal initiative to maintain professional competence including technological literacy and to keep abreast of professional information. Professional and personal growth are ongoing throughout the counselor’s career.

E.2. Diversity

The professional school counselor:
a. Affirms the diversity of students, staff and families.

b. Expands and develops awareness of his/her own attitudes and beliefs affecting cultural values and biases and strives to attain cultural competence.

c. Possesses knowledge and understanding about how oppression, racism, discrimination and stereotyping affects her/him personally and professionally.

d. Acquires educational, consultation and training experiences to improve awareness, knowledge, skills and effectiveness in working with diverse populations: ethnic/racial status, age, economic status, special needs, ESL or ELL, immigration status, sexual orientation, gender, gender identity/expression, family type, religious/spiritual identity and appearance.

F. Responsibilities to the Profession

F.1. Professionalism

The professional school counselor:
a. Accepts the policies and procedures for handling ethical violations as a result of maintaining membership in the American School Counselor Association.

b. Conducts herself/himself in such a manner as to advance individual ethical practice and the profession.
c. Conducts appropriate research and report findings in a manner consistent with acceptable educational and psychological research practices. The counselor advocates for the protection of the individual student’s identity when using data for research or program planning.

d. Adheres to ethical standards of the profession, other official policy statements, such as ASCA’s position statements, role statement and the ASCA National Model, and relevant statutes established by federal, state and local governments, and when these are in conflict works responsibly for change.

e. Clearly distinguishes between statements and actions made as a private individual and those made as a representative of the school counseling profession.

f. Does not use his/her professional position to recruit or gain clients, consultees for his/her private practice or to seek and receive unjustified personal gains, unfair advantage, inappropriate relationships or unearned goods or services.

F.2. Contribution to the Profession

The professional school counselor:

a. Actively participates in local, state and national associations fostering the development and improvement of school counseling.

b. Contributes to the development of the profession through the sharing of skills, ideas and expertise with colleagues.

c. Provides support and mentoring to novice professionals.

G. Maintenance of Standards

Ethical behavior among professional school counselors, association members and nonmembers, is expected at all times. When there exists serious doubt as to the ethical behavior of colleagues or if counselors are forced to work in situations or abide by policies that do not reflect the standards as outlined in these Ethical Standards for School Counselors, the counselor is obligated to take appropriate action to rectify the condition. The following procedure may serve as a guide:

1. The counselor should consult confidentially with a professional colleague to discuss the nature of a complaint to see if the professional colleague views the situation as an ethical violation.

2. When feasible, the counselor should directly approach the colleague whose behavior is in question to discuss the complaint and seek resolution.

3. If resolution is not forthcoming at the personal level, the counselor shall utilize the channels established within the school, school district, the state school counseling association and ASCA’s Ethics Committee.

4. If the matter still remains unresolved, referral for review and appropriate action should be made to the Ethics Committees in the following sequence:
   - state school counselor association
   - American School Counselor Association

5. The ASCA Ethics Committee is responsible for:
   - educating and consulting with the membership regarding ethical standards
   - periodically reviewing and recommending changes in code
   - receiving and processing questions to clarify the application of such standards; Questions must be submitted in writing to the ASCA Ethics chair.
   - handling complaints of alleged violations of the ethical standards.

At the national level, complaints should be submitted in writing to the ASCA Ethics Committee, c/o the Executive Director, American School Counselor Association, 1101 King St., Suite 625, Alexandria, VA 22314.

COMPREHENSIVE SCHOOL COUNSELING PROGRAM

mandatory
reporting
Mandatory Reporting Policies and Procedures

Summary
Certain persons are required by Wisconsin State Statute 48.981 to report any incident involving child abuse and/or neglect to child protective services (Department of Human Services) or law enforcement personnel when they have become aware of such an incident during the course of their professional duties.

When reporting is required (mandatory)
Any special person (including certain school personnel) who has reasonable cause to suspect that a child seen by the person in the course of professional duties has been abused or neglected, or who has reason to believe that a child seen by the person in the course of professional duties has been threatened with abuse or neglect and that abuse or neglect of the child will occur, shall report.

What is Reasonable Cause?
The term “Reasonable Cause” has not been clearly defined by the courts. However, it could be summed up by envisioning a scale with equal weight on both sides, now add a feather to one side. It is just enough weight to outweigh the other side. Reasonable cause works the same way. If a person believes the chances are greater than not that abuse or neglect occurred, a report must be made (and according to the feather analogy, it doesn’t have to be much greater).

What needs to be reported and who does the report need to be made to?
Wisconsin State Statute 48.981 (3)(a)(1) describes what needs to be reported.

A person required to report shall immediately inform, by telephone or personally, the county department or the sheriff or city, village, or town police department of the facts and circumstances contributing to a suspicion of child abuse or neglect or of unborn child abuse or to a belief that abuse or neglect will occur.

The School District of Fall Creek will report child abuse and/or neglect to:

- Eau Claire County Department of Human Services
  - Monday – Friday: 715-831-5720
  - Evening – Weekends: 715-839-4972

- Fall Creek Police Department or Eau Claire County Sheriffs Office
  - 24 Hours: 715-839-4972
School personnel required to report
Under Wisconsin State Statute 48.981(2) certain people who work with children in the course of their professional duties are required to report suspected child abuse and/or neglect. In the school setting, these people include:

- School Teachers
- School Administrators
- School Counselors
- Nurses
- Occupational Therapists
- Speech-Language Pathologists
- A mental health specialist not otherwise specified

Confidentiality Issues Associated with Child Abuse and Neglect
State of Wisconsin Statute 48.981(7)(a) states:

All reports made, notices, and records maintained by an agency and other persons, officials and institutions shall be confidential. Reports and records may be disclosed (they don’t have to) only to the following people (NOTE: the following is a list of people of interest in the school setting, more persons are listed in the statute text but are not included here):

1. The subject of a report, except that the person or agency maintaining the record or report may not disclose any information that would identify the reporter.

3m. A child’s parent, guardian or legal custodian or the expectant mother of an unborn child, except that the person or agency maintaining the record or report may not disclose any information that would identify the reporter.

4. A child’s foster parent, treatment foster parent or other person having physical custody of the child or a person having physical custody of the expectant mother of an unborn child, except that the person or agency maintaining the record or report may not disclose any information that would identify the reporter.

8. A law enforcement officer or law enforcement agency or a district attorney for purposes of investigation or prosecution.

What could happen if I don’t report?
Under Wisconsin State Statute 48.981 (7):

Whoever intentionally violates this [statute] by failure to report as required may be fined not more than $1,000 or imprisoned not more than 6 months or both.
What is Abuse?
Wisconsin State Statute 48.02 (1) defines abuse in a number of ways. “Abuse,” other than when used in referring to abuse of alcohol beverages or other drugs, means any of the following:

(a) Physical injury inflicted on a child by other than accidental means.

(am) When used in referring to an unborn child, serious physical harm inflicted on the unborn child, and the risk of serious physical harm to the child when born, caused by the habitual lack of self-control of the expectant mother of the unborn child in the use of alcohol beverages, controlled substances or controlled substance analogs, exhibited to a severe degree.

(b) Sexual intercourse or sexual contact under s. 940.225 (Sexual assault), 948.02 (Sexual assault of a child), 948.025 (Engaging in repeated acts of sexual assault of the same child), or 948.085 (Sexual assault of a child placed in substitute care).

(c) A violation of s. 948.05 (Sexual exploitation of a child).

(d) Permitting, allowing or encouraging a child to violate s.944.30 (Prostitution).

(e) A violation of s. 948.055 (Causing a child to view or listen to sexual activity).

(f) A violation of s. 948.10 (Exposing genitals or pubic area).

(g) Manufacturing methamphetamine in violation of s. 961.41 (1) (e) under any of the following circumstances:
   1. With a child physically present during the manufacture.
   2. In a child’s home, on the premises of a child’s home, or in a motor vehicle located on the premises of a child’s home.
   3. Under any other circumstances in which a reasonable person should have known that the manufacture would be seen, smelled, or heard by a child.

(gm) Emotional damage for which the child’s parent, guardian or legal custodian has neglected, refused or been unable for reasons other than poverty to obtain the necessary treatment or to take steps to ameliorate the symptoms.

What is Neglect?
Wisconsin State Statute 48.981 (1) (d) defines neglect in this way:

(d) “Neglect” means failure, refusal or inability on the part of a caregiver, for reasons other than poverty, to provide necessary care, food, clothing, medical or dental care or shelter so as to seriously endanger the physical health of the child.
Key Definitions Associated with Abuse and Neglect
There are some additional terms within the definition of abuse that have been defined by Wisconsin State Statute 48.02.

(14g) “Physical injury” includes but is not limited to lacerations, fractured bones, burns, internal injuries, severe or frequent bruising or great bodily harm, as defined in s. 939.22 (14).

"Great bodily harm" means bodily injury which creates a substantial risk of death, or which causes serious permanent disfigurement, or which causes a permanent or protracted loss or impairment of the function of any bodily member or organ or other serious bodily injury.

(5j) “Emotional damage” means harm to a child’s psychological or intellectual functioning. “Emotional damage” shall be evidenced by one or more of the following characteristics exhibited to a severe degree: anxiety; depression; withdrawal; outward aggressive behavior; or a substantial and observable change in behavior, emotional response or cognition that is not within the normal range for the child’s age and stage of development.
School District of Fall Creek
Mandatory Reporting Documentation

The following procedures are to be used in referring suspected child abuse/neglect cases:

1. Mandated reporters, the school administrator, or designated staff, shall immediately report all cases of suspected child abuse/neglect to the Department of Human Services Intake Worker at 715-831-5720 during normal business hours or Fall Creek Police Department or Eau Claire County Sheriff’s Department after hours at 715-839-4972.

2. Mandated reporters will complete a written report (attached). Once the report is complete, it should be given to the building level principal for review and confidential storage.

3. Mandated reporters will notify their building principal of every incident that requires contact with Human Services.

4. Confidential reports will be securely kept in a locked file system maintained by building level principals. The only persons with access to the reports will be building level principals, school counselors, psychologists, and/or the teacher or faculty member who filed such report.

   Keys for the locked file system will be maintained by building level principals and school counselors.

5. Anyone who obtains access to confidential reports shall do so only if required by the course of their professional duties.

6. Confidential reports, as described in this policy and procedure, shall be maintained no more than seven years after a student’s 18th birthday or unless otherwise specified under Wisconsin State Statutes.

performance standards
School Counselor Performance Standards
These contain basic standards of practice expected from counselors. These standards reflect the unique training of school counselors and their responsibilities within the school system.

School counselor standards include:
- Standard 1: Program organization
- Standard 2: School guidance curriculum delivered to all students
- Standard 3: Individual student planning
- Standard 4: Responsive Services
- Standard 5: Systems support
- Standard 6: School counselor and administrator agreement
- Standard 7: Advisory Council
- Standard 8: Use of Data
- Standard 9: Student monitoring
- Standard 10: Use of time and Calendar
- Standard 11: Results evaluation
- Standard 12: Program audit
- Standard 13: Infusing themes

Standard 1: The professional school counselor plans, organizes, and delivers the school counseling programs
1.1 – A program is designed to meet the needs of the school.
1.2 – The professional school counselor demonstrates interpersonal relationships with students.
1.3 – The professional school counselor demonstrates positive interpersonal relationships with educational staff.
1.4 – The professional school counselor demonstrates positive interpersonal relationships with parents or guardians.

Standard 2: The professional school counselor implements the school guidance curriculum through the use of effective instructional skills and careful planning of structured group sessions for all students
2.1 – The professional school counselor teaches school guidance units effectively.
2.2 – The professional school counselor develops materials and instructional strategies to meet student needs and school goals.
2.3 – The professional school counselor encourages staff involvement to ensure the effective implementation of the school guidance curriculum.

Standard 3: The professional school counselor implements the individual planning component by guiding individuals and groups of students and their parents through the development of educational and career plans
3.1 – The professional school counselor, in collaboration with parents, helps students establish goals and develop and use planning skills.
3.2 – The professional school counselor demonstrates accurate and appropriate interpretation of assessment data and the presentation of relevant, unbiased information.
Standard 4: The professional school counselor provides responsive services through the effective use of individual and small-group counseling, consultation and referral skills

4.1 – The professional school counselor counsels individual students and small group of students with identified needs and concerns.

4.2 – The professional school counselor consults effectively with parents, teachers, administrators, and other relevant individuals.

4.3 – The professional school counselor implements an effective referral process with administrators, teachers, and other school personnel.

Standard 5: The professional school counselor provides system support through an effective school counseling program management and support for other educational programs

5.1 – The professional school counselor provides a comprehensive and balanced school counseling program in collaboration with school staff.

5.2 – The professional school counselor provides support for other school programs.

Standard 6: The professional school counselor discusses the counseling department management system and the program action plans with the school administrator

6.1 – The professional school counselor discusses the qualities of the school counselor management system with the other members of the counseling staff and has agreement.

6.2 – The professional school counselor discusses the program results anticipated when implementing the action plans for the school year.

Standard 7: The professional school counselor is responsible for establishing and convening an advisory council for the school counseling program

7.1 – The professional school counselor meets with the advisory committee.

7.2 – The professional school counselor reviews the school counseling program audit with the council.

7.3 – The professional school counselor records meeting information.

Standard 8: The professional school counselor collects and analyzes data to guide program direction and emphasis

8.1 – The professional school counselor uses school data to make decisions regarding student choice of classes and special programs.

8.2 – The professional school counselor uses data from the counseling program to make decisions regarding program revisions.

8.3 – The professional school counselor analyzes data to ensure every student has equity and access to a rigorous academic curriculum.

8.4 – The professional school counselor understand and uses data to establish goals and activities to close the gap.
Standard 9: The professional school counselor monitors the students on a regular basis as they progress in school

9.1 – The professional school counselor is accountable for monitoring every student’s progress.
9.2 – The professional school counselor implements monitoring systems appropriate to the individual school.
9.3 – The professional school counselor develops appropriate interventions for students as needed and monitors their progress.

Standard 10: The professional school counselor uses time and calendars to implement an efficient program

10.1 – The professional school counselor uses a master calendar to plan activities throughout the year.
10.2 – The professional school counselor distributes the master calendar to parents, staff, and students.
10.3 – The professional school counselor posts a weekly or monthly calendar.
10.4 – The professional school counselor analyzes time spent providing direct service to students.

Standard 11: The professional school counselor develops a results evaluation for the program

11.1 – The professional school counselor measures results attained from school guidance curriculum and closing the gap activities
11.2 – The professional school counselor works with members of the counseling team and with the principal to clarify how programs are evaluated and how results are shared.
11.3 – The professional school counselor knows how to collect process, perception, and results data.

Standard 12: The professional school counselor conducts a yearly program audit

12.1 – The professional school counselor completes a program audit to determine the degrees to which the school counseling program is being implemented.
12.2 – The professional school counselor shares the results of the program audit with the advisory council.
12.3 – The professional school counselor uses the yearly audit to make changes in the school counseling program and calendar for the following year.
Standard 13: The professional school counselor is a student advocate, leader, collaborator, and a systems change agent

13.1 – The professional school counselor promotes academic success of every student.
13.2 – The professional school counselor promotes equity and access for every student.
13.3 – The professional school counselor takes a leadership role within the counseling department, the school setting, and the community.
13.4 – The professional school counselor understands reform issues and works to close the achievement gap.
13.5 – The professional school counselor collaborates with teachers, parents, and the community to promote academic success of students.
13.6 – The professional school counselor builds effective teams by encouraging collaboration among all school staff.
13.7 – The professional school counselor uses data to recommend systemic change in policy and procedures that limit or inhibit academic achievement.

### II. MISSION OF SCHOOL COUNSELING PROGRAMS

The mission articulates the intentionality of the school counseling program. It represents the immediate and long-range impact (i.e. what is desired for every student five to ten years after graduation).

<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
### III. DOMAINS AND GOALS

Goals are the extension of the mission and focus on the results students will achieve by the time each student leaves the school system. The ASCA National Standards domain areas serve as the foundational goals for the school counseling program: academic, career and personal/social development. The National Standards provide a structure for the definition of goals related to competencies.

<tr>
<td>3.5 Goals have been presented to and accepted by administration, counselors and the advisory council</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### IV. ASCA NATIONAL STANDARDS/COMPETENCIES

Competencies are knowledge, attitudes or skills that are observable and can be transferred from a learning situating to a real-life situation and that involve the production of a measurable outcome. Competencies are indicators that a student is making progress toward the goals of the school counseling programs. They are developed and organized into content areas.

<tr>
<td>4.2 Developmentally appropriate student competencies are specified for each grade-level grouping</td>
<td></td>
<td></td>
<td></td>

</tr>
<tr>
<td>4.3 Selected competencies are based on assessment of student needs and are measurable or observable</td>
<td></td>
<td></td>
<td></td>
<td></td>

</tr>
<tr>
<td>4.5 Written student competencies have been presented to and accepted by the administration, counselors and the school counseling advisory council</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
V. GUIDANCE CURRICULUM

Consists of structured developmental lessons designed to assist students in achieving the competencies and is presented systematically through classroom and group activities, K-12. The purpose of the guidance curriculum is to provide all students with the knowledge and skills appropriate to their developmental level. The curriculum is organized to help students acquire, develop and demonstrate competencies within the three domains: academic, career and personal/social.

<table>
<thead>
<tr>
<th>CRITERIA</th>
</tr>
</thead>
<tbody>
<tr>
<td>5.1 Guidance curriculum for all three domains has been written and adopted based on local site needs.</td>
</tr>
<tr>
<td>5.2 All students receive, in a systemic way, the content to acquire knowledge, attitudes and skills to enhance their academic, career and personal/social development.</td>
</tr>
<tr>
<td>5.3 Content is measurable by pre-post tests.</td>
</tr>
<tr>
<td>5.4 Materials, equipment and facilities are available to support the program delivery.</td>
</tr>
<tr>
<td>5.5 Effectiveness of curriculum is evaluated annually</td>
</tr>
<tr>
<td>5.6 The school counseling curriculum has been presented to and accepted by administration, counselors, and the school counseling advisory council</td>
</tr>
</tbody>
</table>

VI. INDIVIDUAL STUDENT PLANNING

Individual student planning consists of school counselors coordinating ongoing systemic activities designed to assist the individual student in establishing personal goals and developing future plans.

<table>
<thead>
<tr>
<th>CRITERIA</th>
</tr>
</thead>
<tbody>
<tr>
<td>6.1 There is a systemic approach to helping students make appropriate education plans.</td>
</tr>
<tr>
<td>6.2 There is a systemic approach to helping students understand themselves through interpretation of standardized and individual tests</td>

<tr>
<td>6.3 A tool exists at the secondary level to assist students in making appropriate educational plans (i.e. six-year plan)</td>
</tr>
<tr>
<td>6.4 Individual student planning includes: individual Appraisal, individual advisement and appropriate student placement</td>
</tr>
<tr>
<td>6.5 Accurate, appropriate and effective printed material is distributed to support the individual planning efforts of student and their parents</td>
</tr>
<tr>
<td>6.6 The districtwide tools used for educational planning have been presented to the board</td>
</tr>
</tbody>
</table>
### VII. RESPONSIVE SERVICES

Responsive services within the school counseling program consist of activities to meet the immediate need of students. These needs or concerns require counseling, consultation, referral, peer mediation or information.

### VIII. SYSTEM SUPPORT

System support consists of management activities that establish, maintain and enhance the total counseling program.

<table>

<th>N/A</th>
</tr>
</thead>
<tbody>
<tr>
<td>8.1 System support services have been created collaboratively with counselors and administrators</td>

</tr>
<tr>
<td>8.4 Counselors serve on departmental curriculum committees, district-level subject councils, community committees or advisory councils</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
The management system is the process by which accountability for results is established and indicates who will be responsible for which students acquiring predetermined competencies.

IX. SCHOOL COUNSELOR/ADMINISTRATOR AGREEMENTS

Agreements are statements of responsibility by each counselor specifying the program results and students the counselor is accountable for. These agreements are negotiated with and approved by the designated administrator.

<table>
<thead>
<tr>
<th>CRITERIA</th>
<th>None</th>

<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

X. ADVISORY COUNCIL

An advisory council is a group of persons appointed to review the program audit, goals and results reports of the school counseling program and to make recommendations to the school counseling department, principal and/or the superintendent. The membership has representation of groups affected by the school counseling program: student, parents, teachers, counselors, administrators and community.

<table>

</tr>
<tr>
<td>10.2 The advisory council has appropriate representative membership</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>10.3 The advisory council meets at least twice a year</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>10.4 The advisory panel reviews the guidance program audit, a summary of the program results reports and makes appropriate recommendations</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
XI. USE OF DATA and STUDENT MONITORING

Analysis of data drives the program. Monitoring students' progress ensures each student acquires the identified competencies. Monitoring may be systemic by district or specific to school site, grade, class or individually, depending on site and student need. The process includes recording verification of the completion of the competency on a form (planning folder, portfolio, computer disc or other document) and measuring student improvement over time.

<td></td>
</tr>
<tr>
<td>11.7 Monitoring activities are determined by district, school site and grade level and are assessed over time</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

XII. USE OF DATA and CLOSING THE GAP

Analysis of data drives the program. The needs surface when program and individual data are analyzed monitoring equity and access to rigorous academic programs for every student. Monitoring of individual progress reveals interventions may be needed to support the student in achieving academic success. Data are necessary to determine: Where are we now? Where should we be? Where are we going to go? Needs are identified discrepancies between the desired results and the results currently being achieved.

<tr>
<td>12.4 The identified needs become sources for the determination of closing-the-gap activities</td>
<td></td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>
XIII. ACTION PLANS (GUIDANCE CURRICULUM AND CLOSING THE GAP)

For every competency taught or result anticipated by counselors, there must be a plan of how the school counselor intends to achieve the desired competency or result. Each plan contains 1) the domain, standard and competency addressed; 2) description of actual activity and curriculum used; 3) the data driving the decision to address this competency; 4) when the activity is to be completed; 5) who is responsible for delivery; 6) the means of evaluating student success – process, perception or results data; and 7) the expected result for student(s).

XIV. USE OF TIME/CALENDAR
A master calendar of events is developed and published to effectively plan and promote the school counseling program. To maximize active participation in the program, the calendar provides students, parents, teachers and administrators with knowledge of what is scheduled and the location and time indicating when and where activities will be held.

## XV. RESULTS REPORT

For every competency or result assumed by counselors, there must be a plan of how the school counselor intends to achieve the desired competency or result. Each results report contains 1) the domain, standard and competency addressed; 2) description of actual activity and curriculum used; 3) the data that drove the decision to address this competency; 4) when it was completed; 5) who was responsible for delivery; 6) the means used to evaluate student success – process, perception or results; and 7) the final result for student(s).

### XVI. COUNSELOR PERFORMANCE STANDARDS

The school counselor's performance standards used for evaluation contain basic standards of practice expected of school counselors implementing a comprehensive school counseling program. These performance standards serve as both a basis for counselor evaluation and as a means for counselor self-evaluation.

### XVII. PROGRAM AUDIT

The program audit provides evidence of the program's alignment with the ASCA National Model. The primary purpose for collecting information is to guide future actions within the program and to improve future results for students.
