

In a group of two, you will be working together to create a menú. The requirements are as follows:

1. You will create a name in Spanish for your restaurant.
2. You will find pictures in a magazine or draw pictures of the food in your restaurant. All items need to have an article with them (el, la, los, las). Try to use the words that we know. Otherwise, you will have to look up the item in the dictionary.
3. Next, you will figure out a price for the item in pesos. Currently, there are about 12 pesos per dollar. Make your prices realistic. Write the price in pesos next to the item.
4. Finally, be neat and organized when creating the menu. That's it!
